

A Siemens Business

STATEMENT OF WARRANTY

**RUSSELECTRIC LV TRANSFER AND BYPASS/ISOLATION SWITCHES,
TYPE: RTS-03 AND RTS-30**

FOR: JOB NAME / CUSTOMER NAME

**PURCHASE ORDER NUMBER: XXXXXXXX
RUSSELECTRIC SHOP ORDER NO.: XXXXXXXX**

The Company hereby guarantees that all labor and materials as delivered will be in accordance with the provisions of the Contract Documents and that all such work will be and remain free from defects (unless caused by the installer) for a period of five (5) years, provided Russelectric performs startup of transfer switches. This warranty period shall commence from the date of shipment, XX/XX/XXXX.

The Company shall repair and/or replace at its own cost and expenses, all defects in the work appearing within the first (5) five years of the warranty period.

All repairs and/or replacements of defective work shall be made at the convenience of the Owner during such times as will not interfere with the normal construction, use and/or occupancy of the project.

If the equipment delivered hereunder does not meet the above warranty, and if the Purchaser promptly notifies the Company, the Company shall thereupon correct any defect, including nonconformance with the specifications, either (at its option) by repairing any defective or damaged parts of the equipment, or by making available at the Company's plant necessary repaired or replacement parts. The liability of the Company under this warranty (except as to title), or for any loss or damage to the equipment whether the claim is based on contract or negligence, shall not in any case exceed that cost of correcting defects in the equipment as herein provided and upon the expiration of the warranty period all such liability shall terminate. The foregoing shall constitute the exclusive remedy of the Purchaser and exclusive liability of the Company. This warranty does not apply if the electrical system loads have erratic voltage, frequency or sine wave distortions, due to other installed equipment.
